

PRIME BUBBLE-X™

PRIME BUBBLE-X™, is an “Eye Appealing” unique air-bubble co-extruded polypropylene material with a fantastic matte surface to enhance printability. This innovative technology has created a rigid but light weight substrate that is ideal for indoor and outdoor displays.

PRIME BUBBLE-X™ was created to be a GREAT alternative to PVC because of its unique physical characteristics along with its ability to be recycled into normal waste stream. This unique brand product can also be used in areas where normal corrugated plastics have not been able to withstand challenging outdoor environments. Available in gauges of 3 to 5 millimeters (mm) in White with widths up to 60”.

Applications:

Indoor/Outdoor Signage, Real Estate & Political Signs, Point of Purchase Displays, Totes, Boxes, Partitions and Convenience Store Outside Displays.

Processes Include:

Screen Printing, Digital Printing, Die Cutting, Scoring, Folding, Gluing, Stapling, Grommets, Drilling, Laser Cutting and Sonic Welding.
