

PRIME TEARTUF™

PRIME TEARTUF™ is a chemically engineered product developed specifically for graphic art applications that require a tough, durable and tear resistance material without having to use PVC.

PRIME TEARTUF™ has approximately a 30% yield advantage over rigid vinyl since it is a styrenic. Printer/Processors find this styrene product easy to process; trim, die-cut, foil stamp, emboss and printable via Litho/Offset, Screen, UV Digital and Flexo Process.

PRIME TEARTUF™ is available in sheets & rolls in natural, white and custom colors. Available in thicknesses ranging from .010 to .030 in a variety of opacities with a Matte/Matte surface.

Applications:

Indoor & Temporary Outdoor Signage, Posters/Signs, Aisle Markers, Point of Purchase Displays, Door Hangers, Temporary ID Cards, Promotional Cards, Pump Toppers and Horticultural Tags.

Processes Include:

Screen Printing, Offset/Litho Printing, Flexo Printing, Digital Printing, Die Cutting, Heat Bending, Laminating, Foil Stamping, Gluing, Laser Cutting, Router and Thermoforming.
