

**COVID-19 Update**  
**Primex Plastics Corporation**  
Status Report – 3/24/20

As we move forward as a company, we would like to update you on our manufacturing operations in each of our locations around the United States. Recent developments, which change almost on a daily basis, continue to be fluid and evolving. Our primary focus is the health and safety of our employees and customers. We have taken several steps to insure a greater degree of safety for our employees, which include:

1. Restricting travel for all personnel
2. Enabling employees to work from home, when possible
3. Restricting visitors to our facilities
4. Expanding cleaning in all locations
5. Enforcing social distancing
6. Ensuring sick employees stay home

Primex Plastics Corporation is identified as an Essential Business during the COVID-19 Pandemic. The U.S. Department of Homeland Security – Cybersecurity & Infrastructure Security Agency (CISA) identifies Critical Infrastructure Industry/Essential Business as one who supplies the medical, food packaging and construction industries. All of our locations are operating at levels that support our customers' requirements. As an Essential Business, our facilities will remain open as we do our part to insure safety for our employees and customers.

Primex Plastics Corporation continues to monitor the global developments to insure that our supply chain is able to supply materials to us during this evolving pandemic. Currently, we have not experienced any disruption in our resin supplies nor have we been contacted by our suppliers on any foreseen issues of supply. We will continue to monitor the situation and should any disruptions occur, your sales representative will be in touch to resolve the issue.

We appreciate your support and continued partnership with Primex. We look forward to a more normal time when we have the ability to thank you personally. Should you have any questions or concerns, please do not hesitate to contact any of us.

Sincerely,

Mike Cramer  
President
