

## PRIME ReCycled Materials

**Primex Plastics is announcing** a new product designation for our Post-Industrial Recycled Content Materials. This new product designation helps clarify the product description that in the past was referred to as Utility Grade Products. For many years, Primex Plastics has provided our customers with several recycled content material options with a sustainability/environmental focus. Our goal is to continue to provide to the marketplace material options that support our sustainability focus.

**PRIME ReCycle Materials** - available in a variety of polymers; Polystyrene, ABS, Polyethylene, Polypropylene and many more.

**PRIMEX PLASTICS CORPORATION** - continues to lead with environmentally friendly practices and products that focus on the 4 R's –  
**REDUCE, REUSE, RECYCLE and REPLACE.**

**CONTACT YOUR TERRITORY BUSINESS MANAGER or INSIDE SALES REPRESENTATIVE for more information.**
