HIGH PERFORMANCE COLOR CONCENTRATES, ADDITIVES & COMPOUNDS

Primex Color, Compounding & Additives is an advanced custom compounder supplying a wide range of thermoplastic elastomer formulations, specialty compounds, color concentrates, and additive masterbatches.

We are a full-service business partner with plastics manufacturers, converters, and processors that serve a diverse range of industries including automotive, electronics/electrical, packaging, building and construction, housewares, sports and outdoor, and medical markets.

OUR PRODUCTS & SERVICES:

- Color Matching
- Material Testing
- INTERACT® Additives
 - Anti-fog
 - Antimicrobials
 - Antioxidants
 - Anti-static
 - Clarifying Agents
 - Desiccant Concentrates
 - Flame Retardants
 - Laser Marking
 - Slip
 - UV Inhibitors
 - Vapor Corrosion Inhibitors
- Faralloy® Engineered Compounds
- Faraprene® Thermoplastic Elastomers
- Sustainable Products
- Quick Ship Masterbatches
- Special Effects
- Material Compliance

PRIMEX

CUSTOM SHEET EXTRUSION

Primex, as one of the largest custom sheet extruders in the United States, specializes in a wide selection of product families to serve a variety of markets and industries. Through vertical integration with our business units, we offer our customers the entire supply chain – from pellet to package.

Primex is the industry leader in state-of-the-art production and testing facilities. Our sheet extrusion facilities are ISO 9001 registered and we have one FDA registered facility in order to provide our customers with the highest level of quality products that have come to be associated with the name Primex.

OUR SPECIALTY PRODUCTS:

- Print Specialty Products
- Anti-Skid Surfaces
- Tuff-X Family
- Ultra Clear PP
- High Heat ABS
- Marine-X
- FR Materials
- Specialty Color Packages
- Weather-X Family
- Faraprene Family (TPE/Soft TPO)
- Specialty Additives

OUR STANDARD PRODUCTS:

- ABS
- APET/RPET
- Bubble-X®
- Cor-X®
- PCR Materials
- PETG
- Polyethylene
- Polypropylene
- Polystyrene
- ReCycled™

OUR CAPABILITIES:

- Custom color
- Custom additives
- Custom textures
- Product gauges from 0.009 to 0.500"
- Material widths up to 170"
- Multi-layer products
- Clean room production
- Laminations
- Corona treatment
- Offline slit & square cutting

PRIMEX 
DESIGN & FABRICATION

CUSTOM FABRICATED PLASTIC PRODUCTS

Primex Design & Fabrication specializes in custom-engineered, reusable plastic packaging solutions and other fabricated products, serving industries such as transportation, retail, pharmaceutical, and distribution centers. With expertise in creating closed-loop packaging systems, we focus on delivering efficient and cost-effective solutions that meet each customer's specific needs. As a division of Primex, PD&F enhances the company's value by providing tailored packaging systems that streamline operations, reduce costs, and support seamless integration across various industries. We are the only packaging company that controls the supply chain, from pellet to packaging to recycling.

OUR CAPABILITIES:

- Off-the-Shelf & Custom-Engineered Solutions
- Foam Inserts and Protection Cut-to-Order (Waterjet)
- High-speed CAD production
- Die-cut Ship Flat Solution
- Full Color Digital Print

OUR PRODUCTS:

- Packaging and Displays
- Automotive Components
- Automotive Packaging & Dunnage
- Distribution Packaging
- Partitions
- Point of Purchase Displays
- Printed Plastics
- Protective Packaging
- Totes & Handheld Containers
- Ultrapac-360 Series Sleeve Packs
- RecycleBoxBin

MATERIAL INNOVATION & TECHNOLOGY

Located at Primex Headquarters in Richmond, Indiana, our ISO/IEC 17025:2017 accredited testing lab drives research, development, and future-focused plastic solutions for our locations and customers worldwide.

With analytical and mechanical analysis, large and small scale pilot lines, and in-house thermoforming capabilities, we are able to handle a broad range of requests.

OUR SERVICES:

- Analytical analysis
- Mechanical analysis
- Raw material and product testing
- Dedicated R&D lines
- Fast scale-ups
- Product and solution development
- Thermal cycling
- Accelerated weathering

(Certificate Number 4071.01)

SUSTAINABILITY

A BETTER TOMORROW *starting today*

We are proud to showcase our ongoing commitment to sustainability, which is deeply embedded in every aspect of our business. We believe in meeting the needs of today without compromising the future. Our approach is comprehensive, focusing on reducing waste, reusing materials, and recycling extensively, all while developing innovative products and processes that support a circular economy.
