

PrintRenew™ PETG

Primex Design & Fabrication's PrintRenew PETG printed displays are made with 100% recycled PETG material and provide a striking way to grab the attention of potential customers.

Create beautiful, digitally printed displays and signage that are museum quality while also being environmentally conscience.

Applications

Our PrintRenew PETG displays and signs are ideal for airport signs, menu displays, backlit graphics, exhibits, art displays, movie theatre boxes, and more.
