

## PrintRenew™ Styrene

Primex Design & Fabrication's PrintRenew styrene printed signs are made with 25% post-consumer recycled content and provide a striking way to grab the attention of potential customers.

**Create beautiful, digitally printed signage** that embodies your brand or product and meets sustainability goals.

### Applications

PrintRenew polystyrene signs are ideal for indoor signage, retail displays, decorative trim, event signage, and more. Polystyrene is the leading choice for retailers, restaurants and promotional events, and our PrintRenew material allows you to showcase vibrant images on a smooth, matte surface containing 25% post consumer recycled content.

### Standard Thicknesses Available

- .015" - .25"

### Digital Print

Our innovative digital printer will bring your graphics to life.

Don't have prepared artwork? We offer graphic design services for an additional fee.
