

Prime DIGITAL HIPS™ & DIGI-HIPS®

PRIME DIGITAL HIPS and DIGI-HIPS, is a specialized high impact polystyrene designed for UV digital printing.

Digital HIPS is a great choice for standard UV digital printing and is available with or without corona treating. DIGI-HIPS is engineered to meet the demands of digital printing especially for processes that require a higher dyne level material, UV Inhibiting characteristics and improved impact levels.

Customization

PRIME DIGITAL HIPS and DIGI-HIPS®, are available in sheets & rolls in natural, white and custom colors. A variety of opacities and controlled textures such as Matte/Matte, Matte/Polish or Matte/Gloss are available in thicknesses ranging from .010 to .1875.

All can be color matched to meet your specific requirements through our vertical integration with Primex Color, Compounding & Additives.

Sustainability

Sustainability includes considering the product's circularity or end of life during the design of the finished product. Prime Digital HIPS and DIGI-HIPS is a polystyrene (recycle code 6) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

Primex Sustainability: A better tomorrow, starting today!
