

Prime POLYGRAPH.ics™ PP

Our Prime POLYGRAPH.ics is a unique brand of polyolefin products that provide printers/processors a highly versatile material that offers exceptional durability, stress crack resistance, and weather resistance.

Prime POLYGRAPH.ics is available in polyethylene (PE) and polypropylene (PP) sheets and rolls.

Prime POLYGRAPH.ics PP

Prime POLYGRAPH.ics PP is a polypropylene material routinely chosen for superior yield, recycling characteristics, and its reduction in energy consumption in production and transportation.

Prime POLYGRAPH.ics PP Clear

Prime POLYGRAPH.ics PP is a clear polypropylene which adds a “clear” advantage in product yield, material composition, and recyclability for those looking to replace other clear materials.

Applications

Indoor/outdoor signage, shelf talkers, aisle markers, counter mats, menus, folding cartons, stationary items, security/safety tags, booklets, pump toppers, and horticultural tags/labels.

Sustainability

Sustainability includes considering the product’s circularity or end of life during the design of the finished product. Prime POLYGRAPH.ics PP is a polypropylene (recycle code 5) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

Primex Sustainability: A better tomorrow, starting today!
