

## Prime ReCycle™ PCR Cor-X PP

Our Prime ReCycle PCR Cor-X, is a corrugated polypropylene sheet with Post-Consumer Recycled content. Prime ReCycle PCR Cor-X PP is designed to help support broader recycling efforts and thereby lessen the amount of plastic in landfills or the natural environment.

**Primex** continues to lead with environmentally friendly practices and engineered products that focus on the principles of the 4R's - REDUCE, REUSE, RECYCLE and REPLACE.

### Customization

PRIME ReCycle PCR COR-X is a manufactured corrugated polypropylene using prime virgin resin and Post-Consumer Recycled materials to create a printable sheet that is easy to fabricate. This product is available with 15% or 30% Post-Consumer Recycled content from Polypropylene products that have reached the end of their life and have been recovered or diverted from the waste stream. Prime ReCycle PCR Cor-X PP gives customers a more sustainable product.

PRIME ReCycle PCR COR-X is available in 3mm, 4mm, and 5mm sheets. Available in White, Black, and other colors.\*

### Sustainability

Sustainability includes considering the product's circularity or end of life during the finished products design. Prime ReCycle PCR Cor-X PP is a corrugated polypropylene material (recycle code 5) that can be recycled as a post-industrial product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

**Primex Sustainability: A better tomorrow, starting today!**

\*Due to the nature of raw materials being used, colors, opacity, and/or surface aesthetics may vary from lot to lot. Colors may be limited.
