

Prime ReCycle™ Plus Styrene

Our Prime ReCycle Plus Styrene is a printable high impact polystyrene with using the highest amount of recycled content.

Primex continues to lead with environmentally friendly practices and engineered products that focus on the principles of the 4R's - REDUCE, REUSE, RECYCLE and REPLACE.

Customization

Prime ReCycle Plus Styrene was designed to be used in a variety of printing processes such as Screen, Litho/Offset, Flexo, and Digital Printing. ReCycle Plus allow us to utilize product that would otherwise be thrown in landfills, thereby offering some great environmental benefits. Due to the nature of the product, opacities available are Double Opaque, Near Dead, and Dead Opaque with controlled Matte/Matte texture. A variety of gauges ranging from .010 to .125.

Sustainability

Sustainability includes considering the product's circularity or end of life during the design of the finished product. Prime ReCycle Plus is a polystyrene (recycle code 6) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

Primex Sustainability: A better tomorrow, starting today!
