

Prime ReCycled Plus™ Styrene

Our Prime ReCycled Plus Styrene is a printable high impact polystyrene with using the highest amount of recycled content.

Primex continues to lead with environmentally friendly practices and engineered products that focus on the principles of the 4R's - REDUCE, REUSE, RECYCLE and REPLACE.

Customization

Prime ReCycled Plus Styrene was designed to be used in a variety of printing processes such as Screen, Litho/Offset, Flexo, and Digital Printing. ReCycled Plus allow us to utilize product that would otherwise be thrown in landfills, thereby offering some great environmental benefits. Due to the nature of the product, opacities available are Double Opaque, Near Dead, and Dead Opaque with controlled Matte/Matte texture. A variety of gauges ranging from .010 to .125.

Sustainability

Prime ReCycled Plus Styrene meets industry sustainability standards and can be recycled as a post-industrial or post-consumer product.

Primex Sustainability: A better tomorrow, starting today!
