

PRIMEX

COLOR, COMPOUNDING & ADDITIVES

A subsidiary of Primex Plastics Corporation

Primex Color, Compounding & Additives - USA manufacturer of Prime Quality White /Additive/ Custom Color Masterbatch & Engineered Compounds formulated for a wide array of applications to an extensive customer base within the plastics industry.

Primex Color, Compounding & Additives products listed below are formulated as a standard program for a variety of applications, with the same quality, processing capability and performance, in standard color shades. Suitable for use in applications such as; injection molding, extrusion and co-extrusion - sheet or profile, blow-molding, and more. Quantities in our Standard Quick Ship Program range from drums to Gaylords, all at prices constantly monitored to ensure your most competitive cost in use.

Primex Color, Compounding & Additives Masterbatch or Engineered Compound line of white products may be formulated with gas fade / UV resistance, performance release/gloss, laser marking, and many other attributes. We use the highest quality cost effective sustainable ingredients to deliver consistent, reliable results, to meet your customer's specific requirements including important current regulatory requirements.

Product	Description	Polymer Base	Food Contact	Application
1010000C	50% Blue White	PE	Y	Premium Quality Blow/Injection/Extrusion
1011000C	35% ECO White	PE	Y	Economical Injection/Extrusion
1012000C	50% Blue White	PE	Y	Standard Grade Blow/Injection/Extrusion
1013000C	70% Super Blue White	PE	Y	High Opacity/Value for Injection/Extrusion
1110000C	50% Blue White	PS	Y	Premium Quality Blow/Injection/Extrusion
1111000C	35% ECO White	PS	Y	Economical Injection/Extrusion
1112000C	50% Blue White	PS	Y	Standard Grade Blow/Injection/Extrusion
1113000C	70% Super White	PS	Y	High Opacity/Value for Injection /Extrusion
1210000C	50% Blue White	PP	Y	Standard Grade Blow/Injection/Extrusion
1211000C	35% ECO White	PP	Y	Economical Injection/Extrusion
Custom engineered for specific applications		Resin Specific	Ask	White Masterbatch formulated to enhance processing, in resins specific to your application and requirements.
