

Prime VIVID PRINT™

Our Prime Vivid Print is a state-of-the-art engineered synthetic paper that looks, feels, and converts like a premium paper while providing the water resistance and tear resistance of a plastic media.

Very strong polypropylene sheet. The tear resistant properties allows it to be folded and converted at high speeds.

Customization

Prime Vivid Print provides the market with a high quality printable media with great UV and heat resistance properties for a variety of unique applications. Prime Vivid Print is manufactured with a consistent high quality printable soft matte surface in a print friendly white. This unique media is available in gauges .012 to .040. Opacities ranging from white opaque to near dead or dead opaque.

Sustainability

Sustainability includes considering the product's circularity or end of life during the design of the finished product. Prime Vivid Print™ is a polypropylene (recycle code 5) that can be recycled as a post-industrial or post-consumer product. Contact your Primex Territory Business Manager or check with local recycling facilities to determine where it is collected and recycled.

Primex Sustainability: A better tomorrow, starting today!
